

Arcade Joystick - Medium Handle

Code 3426

A medium sized, ball-handled, Arcade Joystick, universally compatible with a wide range of products including arduino boards.

The joystick uses four micro-switches that can be used to detect 8-way movement, and is ideally suited to the construction of simple games and devices.

Features:

- 8-way movement, for full control of output.
- 4 micro-switches to detect on/off.
- Simple, easy to fit design.
- Spring return to centre.
- Rugged construction, can withstand heavy usage.
- Switch ratings: 5A at 125V DC, 3A at 250V AC.

Contents:

- 1 x Medium Sized, Ball-Handle Joystick.

Possible applications include:

- Arcade Machines.
- Remote Controls.

Dimensions:

- Length: 61mm.
- Width: 95mm.
- Joystick Height: 75mm.
- Overall Height: 105mm.
